PROFESSIONAL EXPERIENCE

Full Stack Web Developer Intern

Varcons Technologies | Aug-Sep 2023

- Responsible for designing and implementing the user interface using HTML5, CSS and JavaScript .
- Ensured that the website was responsive and looked great on both desktop and mobile devices.
- I employed Node.js and Express.js to create a contact us form and implemented functionality to store user-submitted data securely in a MongoDB server

Software Testing Intern-Web Based Testing

JB Portals | Sep 2023

- Collaborated with the development team to understand project requirements and design comprehensive test plans.
- Conducted manual testing to simulate user interactions and identify usability, UI/UX, and functionality issues.
- Documented and reported defects using issue tracking systems and analyzed test results

PROJECTS

Criminal Data Management

- Designed a relational database schema to store comprehensive criminal records, including personal details, criminal history, and case information.
- Implemented the database using MySQL, ensuring data integrity and reliability.
- Prepared comprehensive documentation outlining system features, functionality, and troubleshooting procedures.
